Intro/Children

Welcome, welcome here you are  
Fallen from an ancient star  
All you are and all you bring  
Makes wise men dance and angels sing

A brave child born of crystal light  
Comes softly down upon this night  
A windy storm of ages brews  
We wonder what your heart will do

The world awash in darkness sleeps  
While shadows fall the faeries weep  
Though thickets make entangle you  
We'll sing to you till the night is through

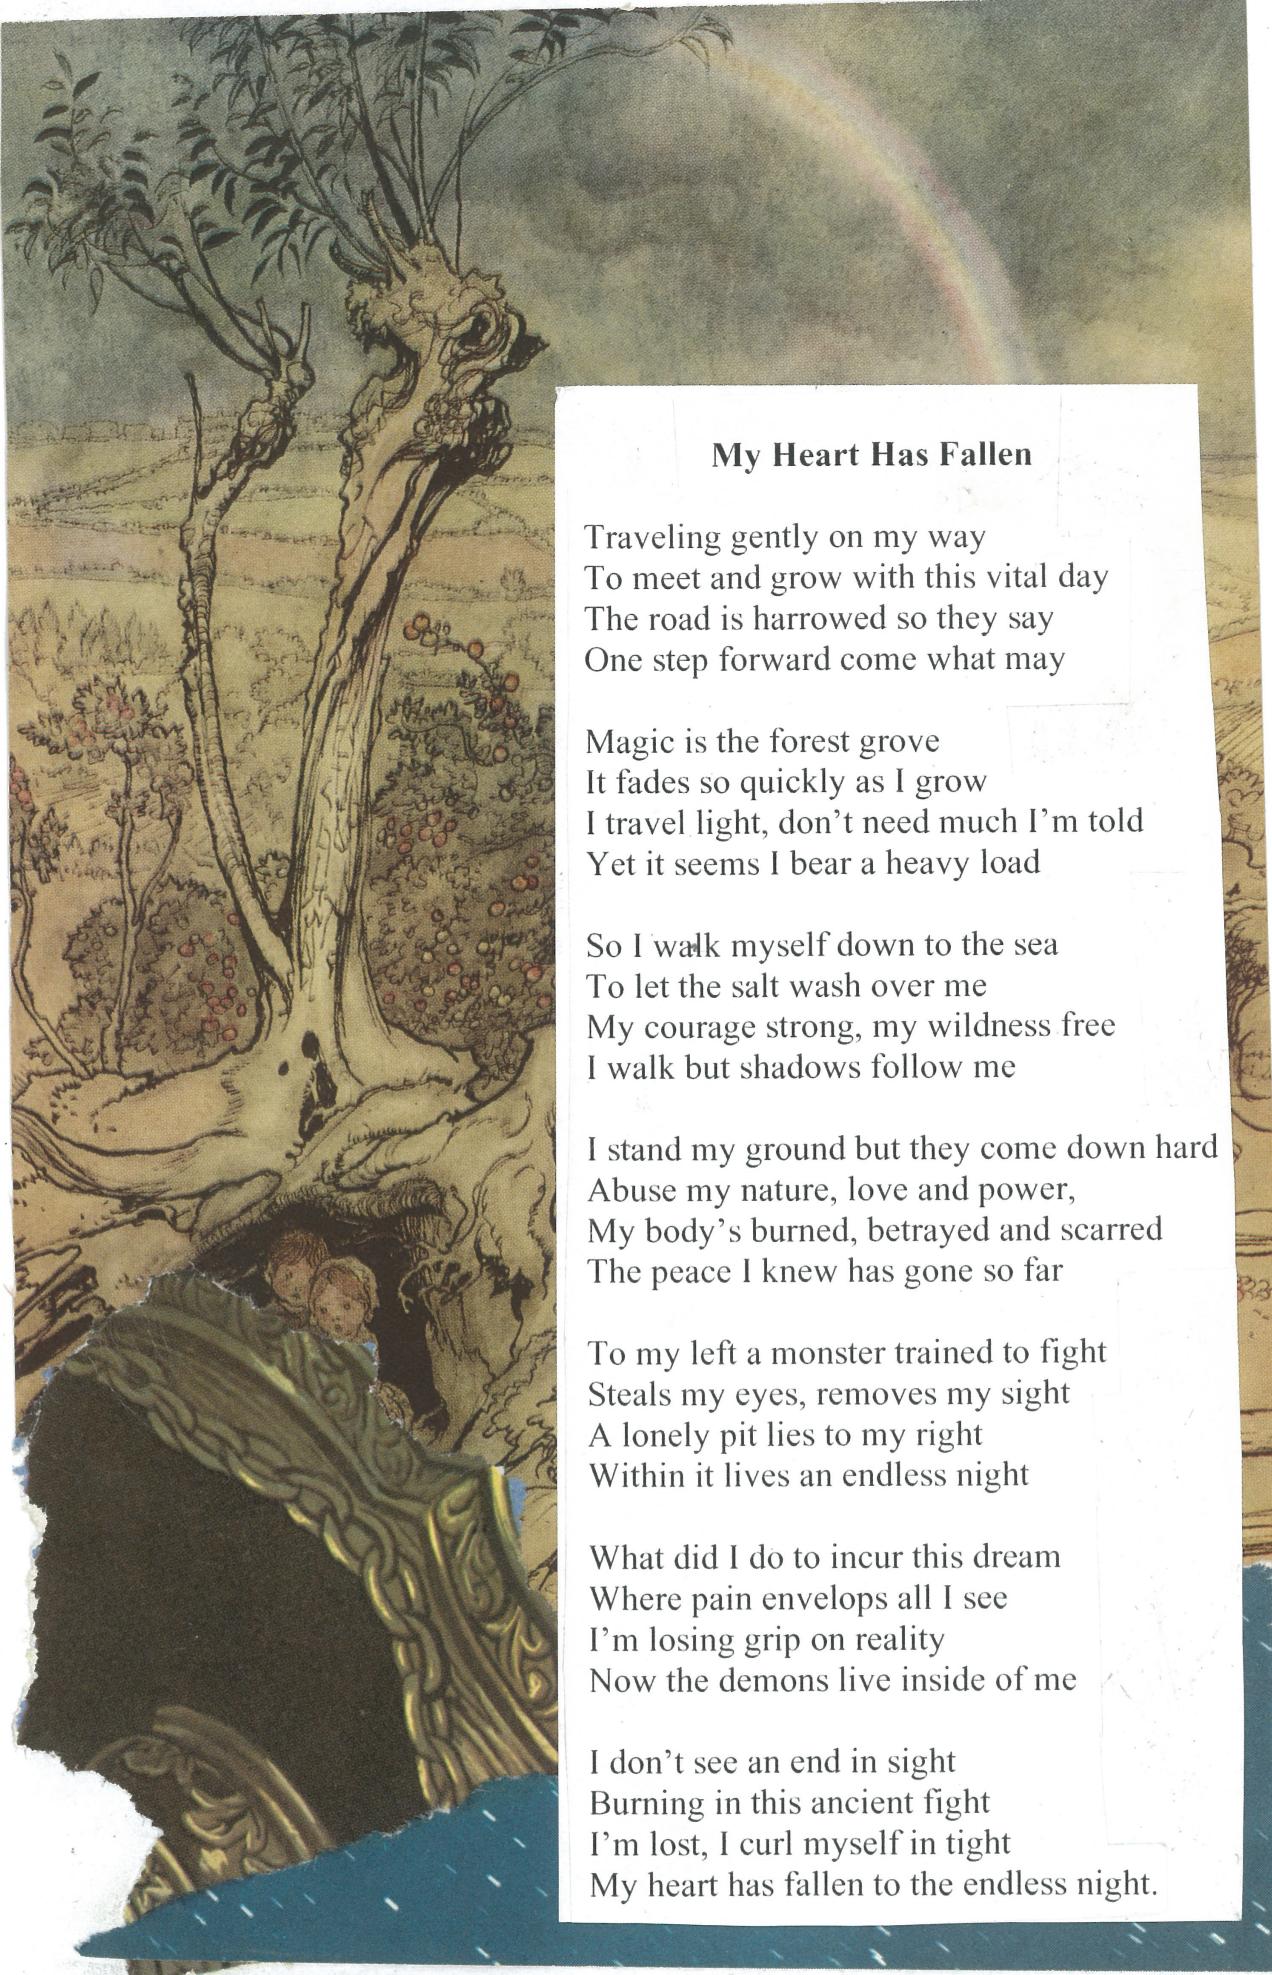

Welcome welcome all you are  
Fallen from an ancient star  
You'll soar here as you find your wings  
May your courage make the mountains ring..

Oh! Children of the golden sun  
We sing to you, oh honest ones  
Seers of the mystic moon  
Our love is shining over you  
Our love is shining over you

Children of the blessed earth  
May the waters bring you endless mirth  
Dancers of the wind and fire  
May you sing of all your hearts desire  
May you sing of all your hearts desire

Children of the rain and snow  
May we help you find your roots to grow  
We protect you and your right to be  
In your wonder, shining bright and free  
In your wonder, shining bright and free

## My Heart Has Fallen

Traveling gently on my way  
To meet and grow with this vital day  
The road is harrowed so they say  
One step forward come what may

Magic is the forest grove  
It fades so quickly as I grow  
I travel light, don't need much I'm told  
Yet it seems I bear a heavy load

So I walk myself down to the sea  
To let the salt wash over me  
My courage strong, my wildness free  
I walk but shadows follow me

I stand my ground but they come down hard  
Abuse my nature, love and power,  
My body's burned, betrayed and scarred  
The peace I knew has gone so far

To my left a monster trained to fight  
Steals my eyes, removes my sight  
A lonely pit lies to my right  
Within it lives an endless night

What did I do to incur this dream  
Where pain envelops all I see  
I'm losing grip on reality  
Now the demons live inside of me

I don't see an end in sight  
Burning in this ancient fight  
I'm lost, I curl myself in tight  
My heart has fallen to the endless night.

## Keep Your Song With You

Our love is calling, where are you?  
We miss your laugh, your tears like dew  
The Earth returns the peace you knew  
Release and let your heart be new

Our love is calling, where are you?  
We watched you fade as sorrow grew  
There was a time your spirit flew  
Release but keep your song with you

## Dragon Song

Still and silent massive rage  
A Dragon waits kept in their cage  
Staying low, I watch and hold  
The power back, restrain the bold

Tension lives within my skin  
Letting nothing out and nothing in  
I'm scared of what I want to say  
I hide it till you turn away

If I was truly honest I would tell you that I loathe you  
I'd scream for a thousand years  
And even then I won't be through  
I'd rip this world apart with the fury of a storm  
But I don't want to say it. No, I long to do no harm

*Scream... we would say. I can't, I reply  
SCREAM... We would say. If I do, will you love me  
Scream, we would say, and you will be light  
Scream, we would say, and you will be bright  
Set fire, we'll come and dance all night.*

*Voice of violet venom see  
Your stunning stings inspire me  
It's time to set your magic free  
Please lose your shit in front of me*

Dragon:

Many times I've watched human greed  
And Every time I've seen flowers bleed  
I want to stop the hate they breed  
I want to fight till every child is freed

The Force:

The world needs your wake now  
The world must awake now  
Let your wild fire burn these walls  
We'll rise to meet the thunders call  
The world needs your wake now  
The world must awake now  
Let your wild love break these walls  
In our innocence the violence falls

And then she roared  
Her fierce magic soared  
Then blue smoke danced and swirled  
As her wings unfurled  
And she turned into a dragon of the unruly world

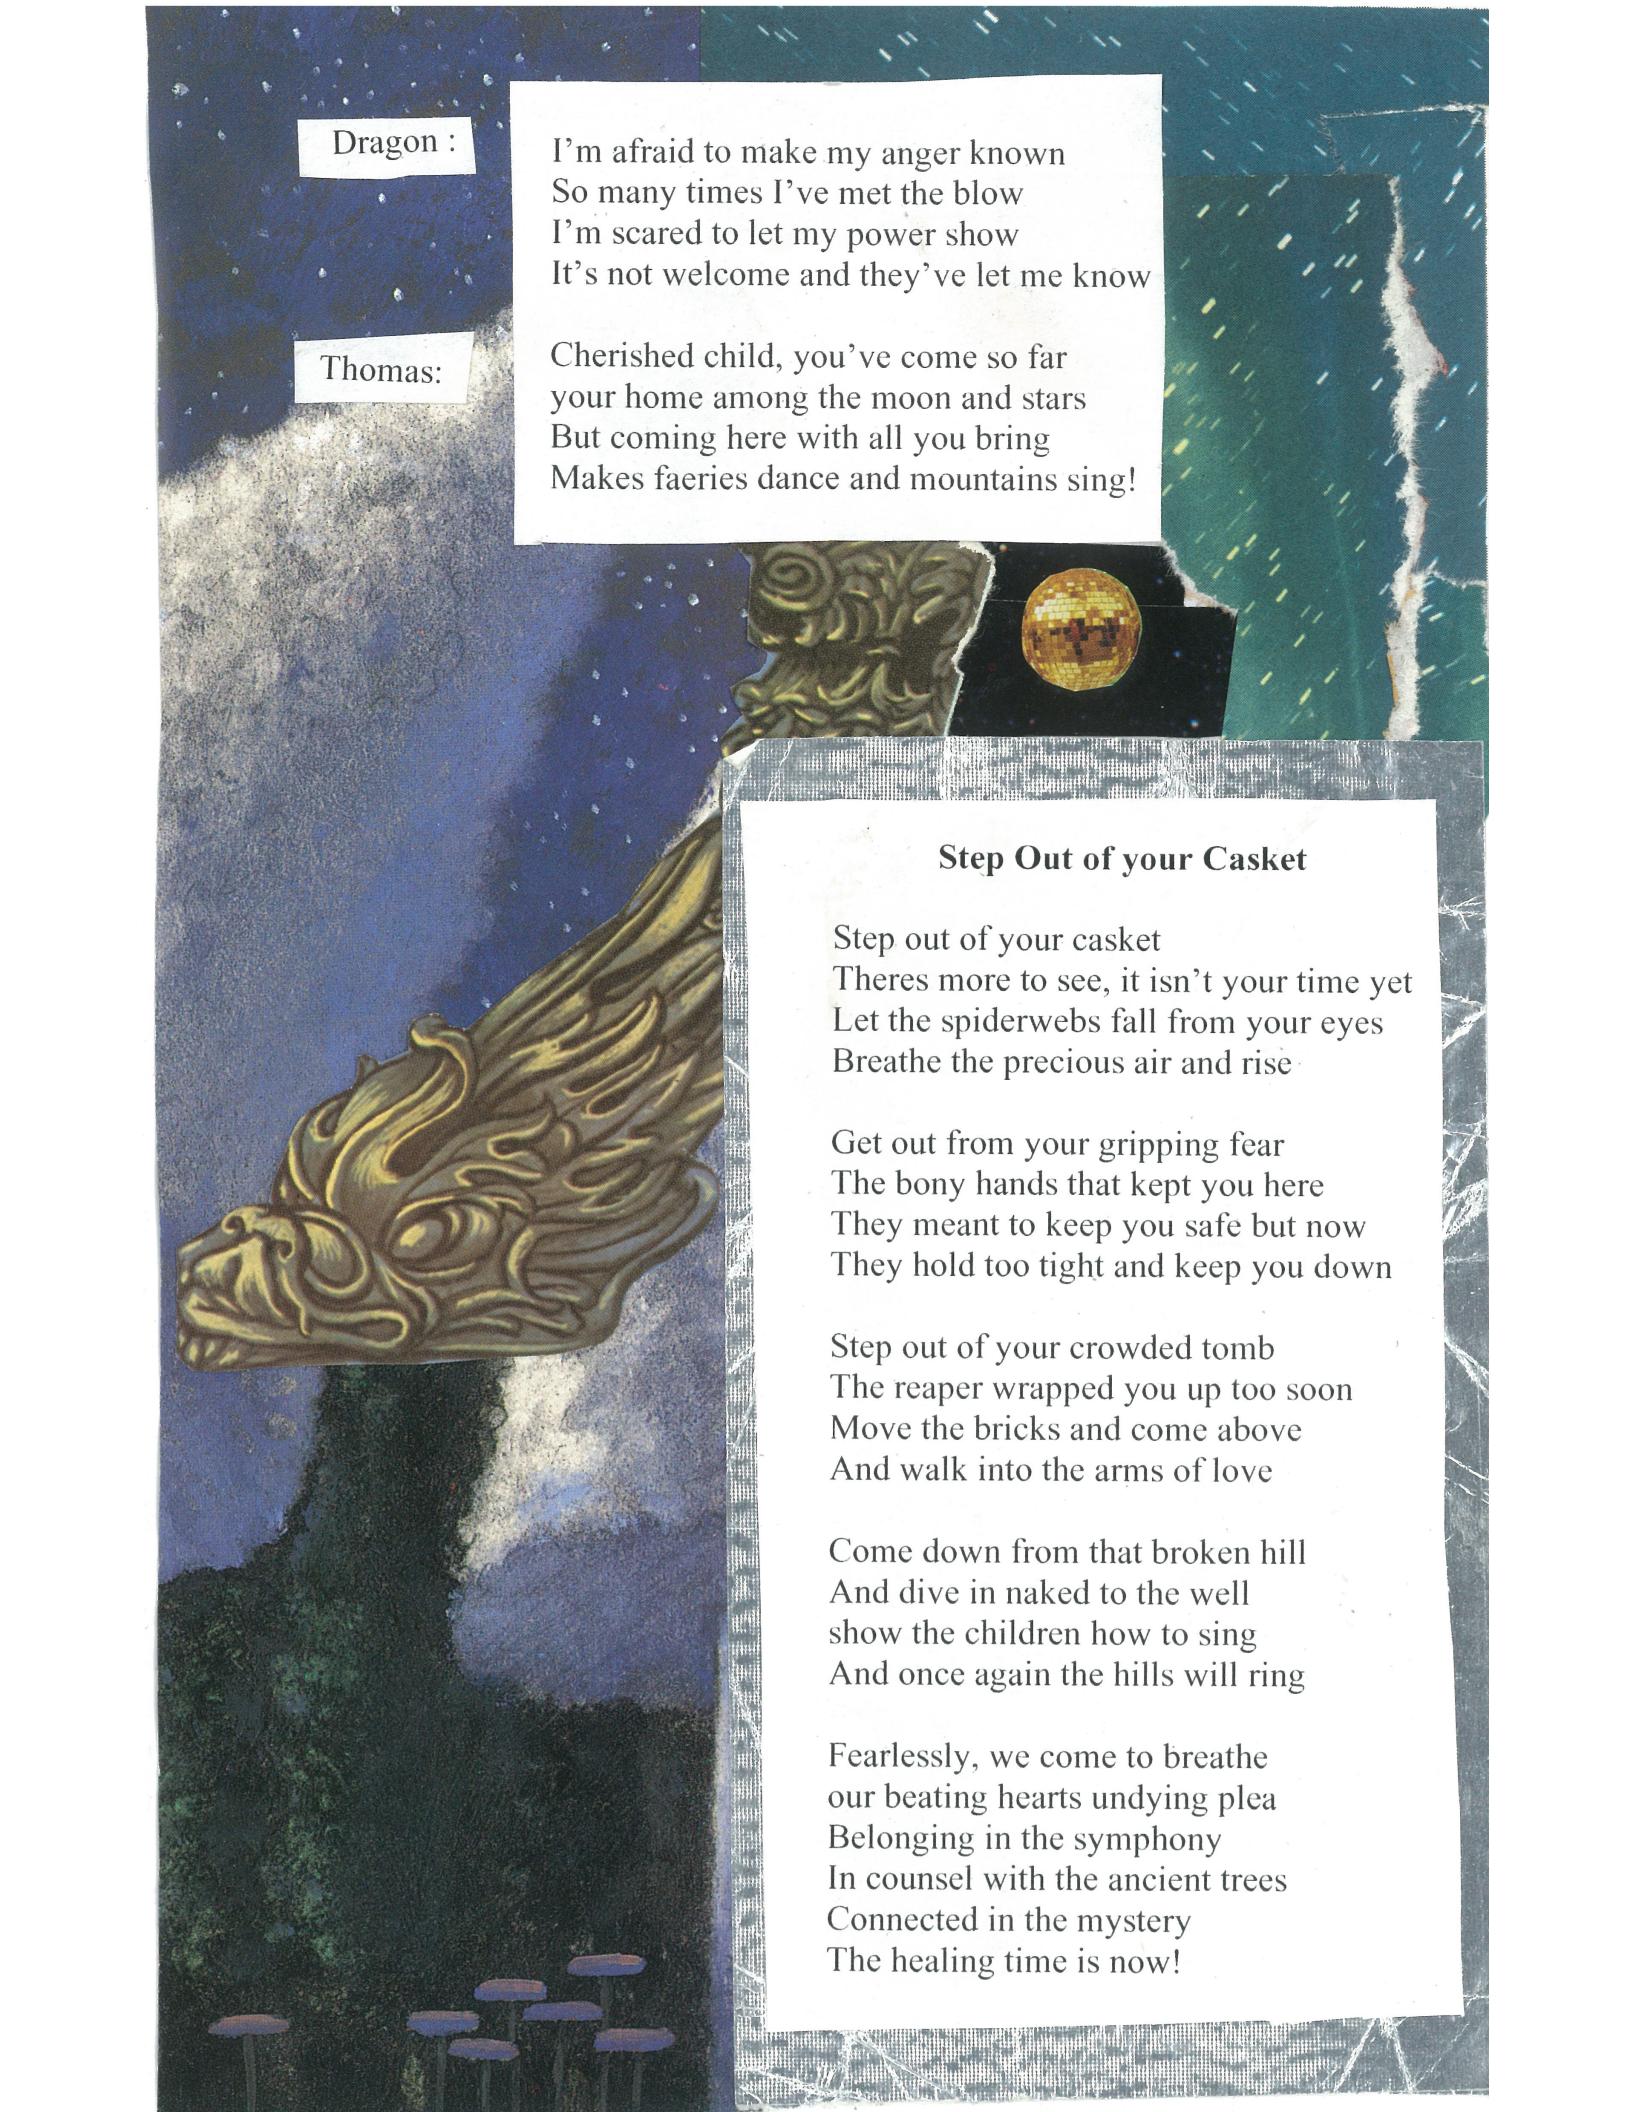

Dragon:

Many times I've watched human greed  
And Every time I've seen flowers bleed  
I'm going to stop the hate they breed  
I'm going to fight till every child is freed  
It's time to make my anger known  
So Many times i've met the blow  
It's time to let my dragon show  
They're rising and ill let you know

Force:

I sing to you, oh creature of the sun and moon  
The flowers bloom beside you where nothing grew  
The winds of change bring power to the coming rains  
I'll sing for you till it's over  
And the darkest night is through

Dragon :

I'm afraid to make my anger known  
So many times I've met the blow  
I'm scared to let my power show  
It's not welcome and they've let me know

Thomas:

Cherished child, you've come so far  
your home among the moon and stars  
But coming here with all you bring  
Makes faeries dance and mountains sing!

### Step Out of your Casket

Step out of your casket  
Theres more to see, it isn't your time yet  
Let the spiderwebs fall from your eyes  
Breathe the precious air and rise

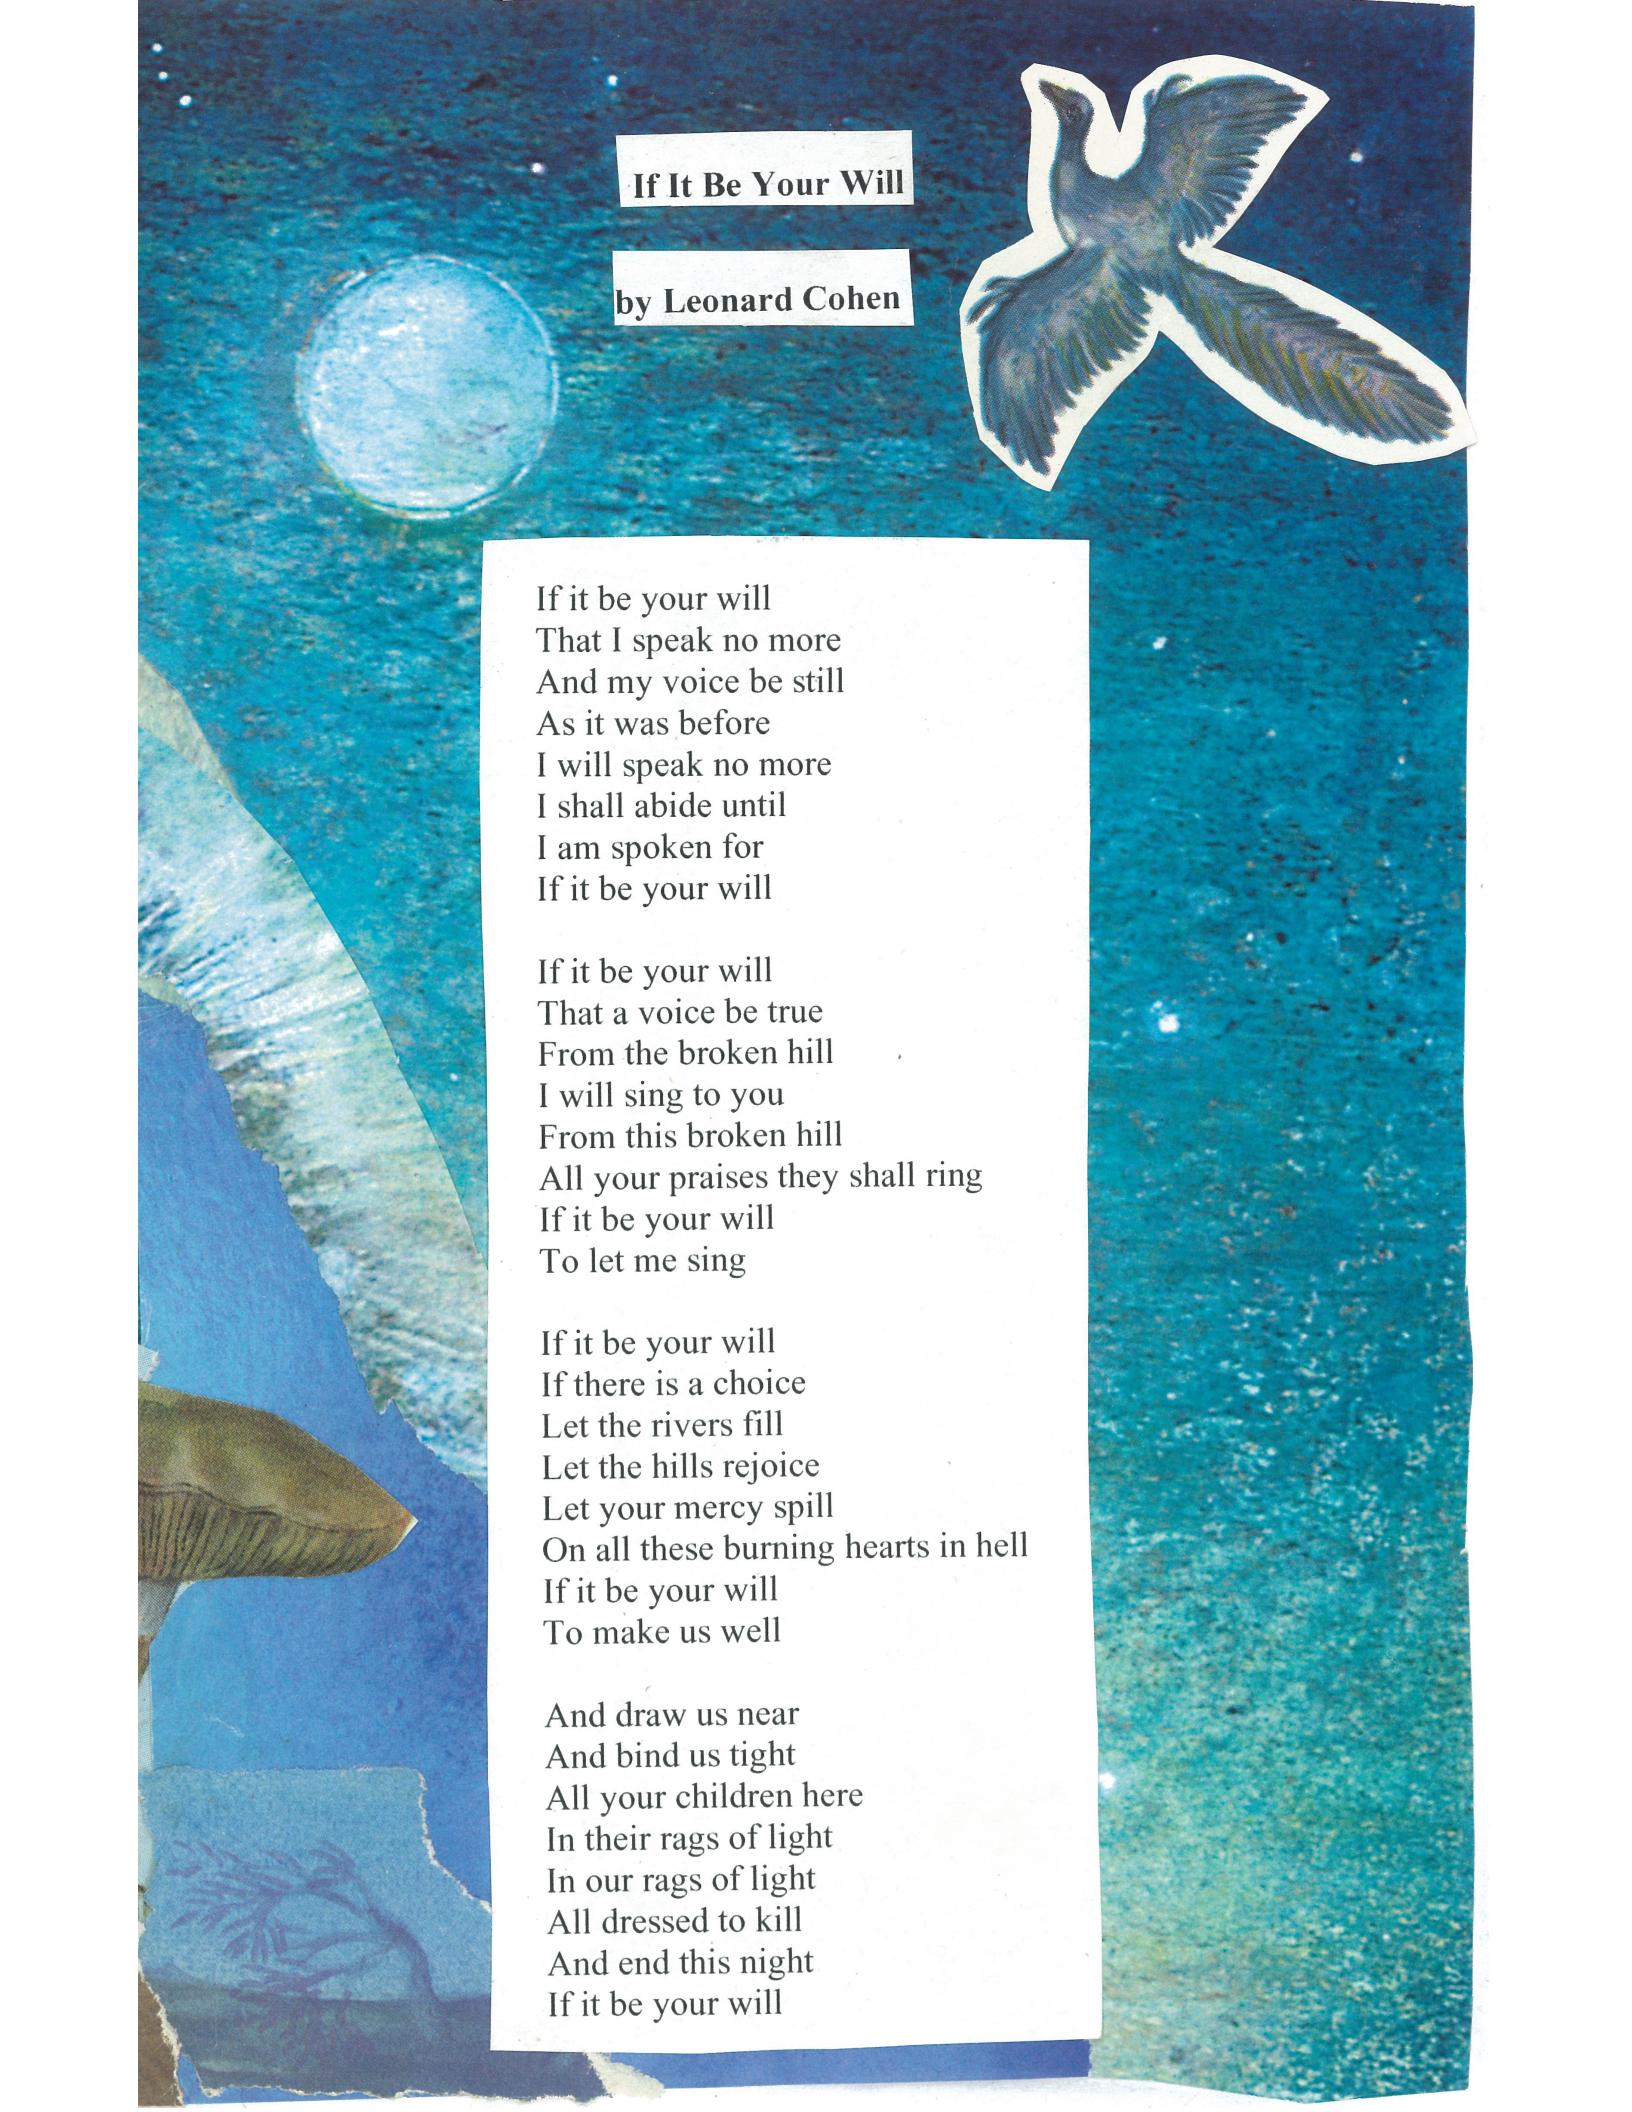

Get out from your gripping fear  
The bony hands that kept you here  
They meant to keep you safe but now  
They hold too tight and keep you down

Step out of your crowded tomb  
The reaper wrapped you up too soon  
Move the bricks and come above  
And walk into the arms of love

Come down from that broken hill  
And dive in naked to the well  
show the children how to sing  
And once again the hills will ring

Fearlessly, we come to breathe  
our beating hearts undying plea  
Belonging in the symphony  
In counsel with the ancient trees  
Connected in the mystery  
The healing time is now!

## If It Be Your Will

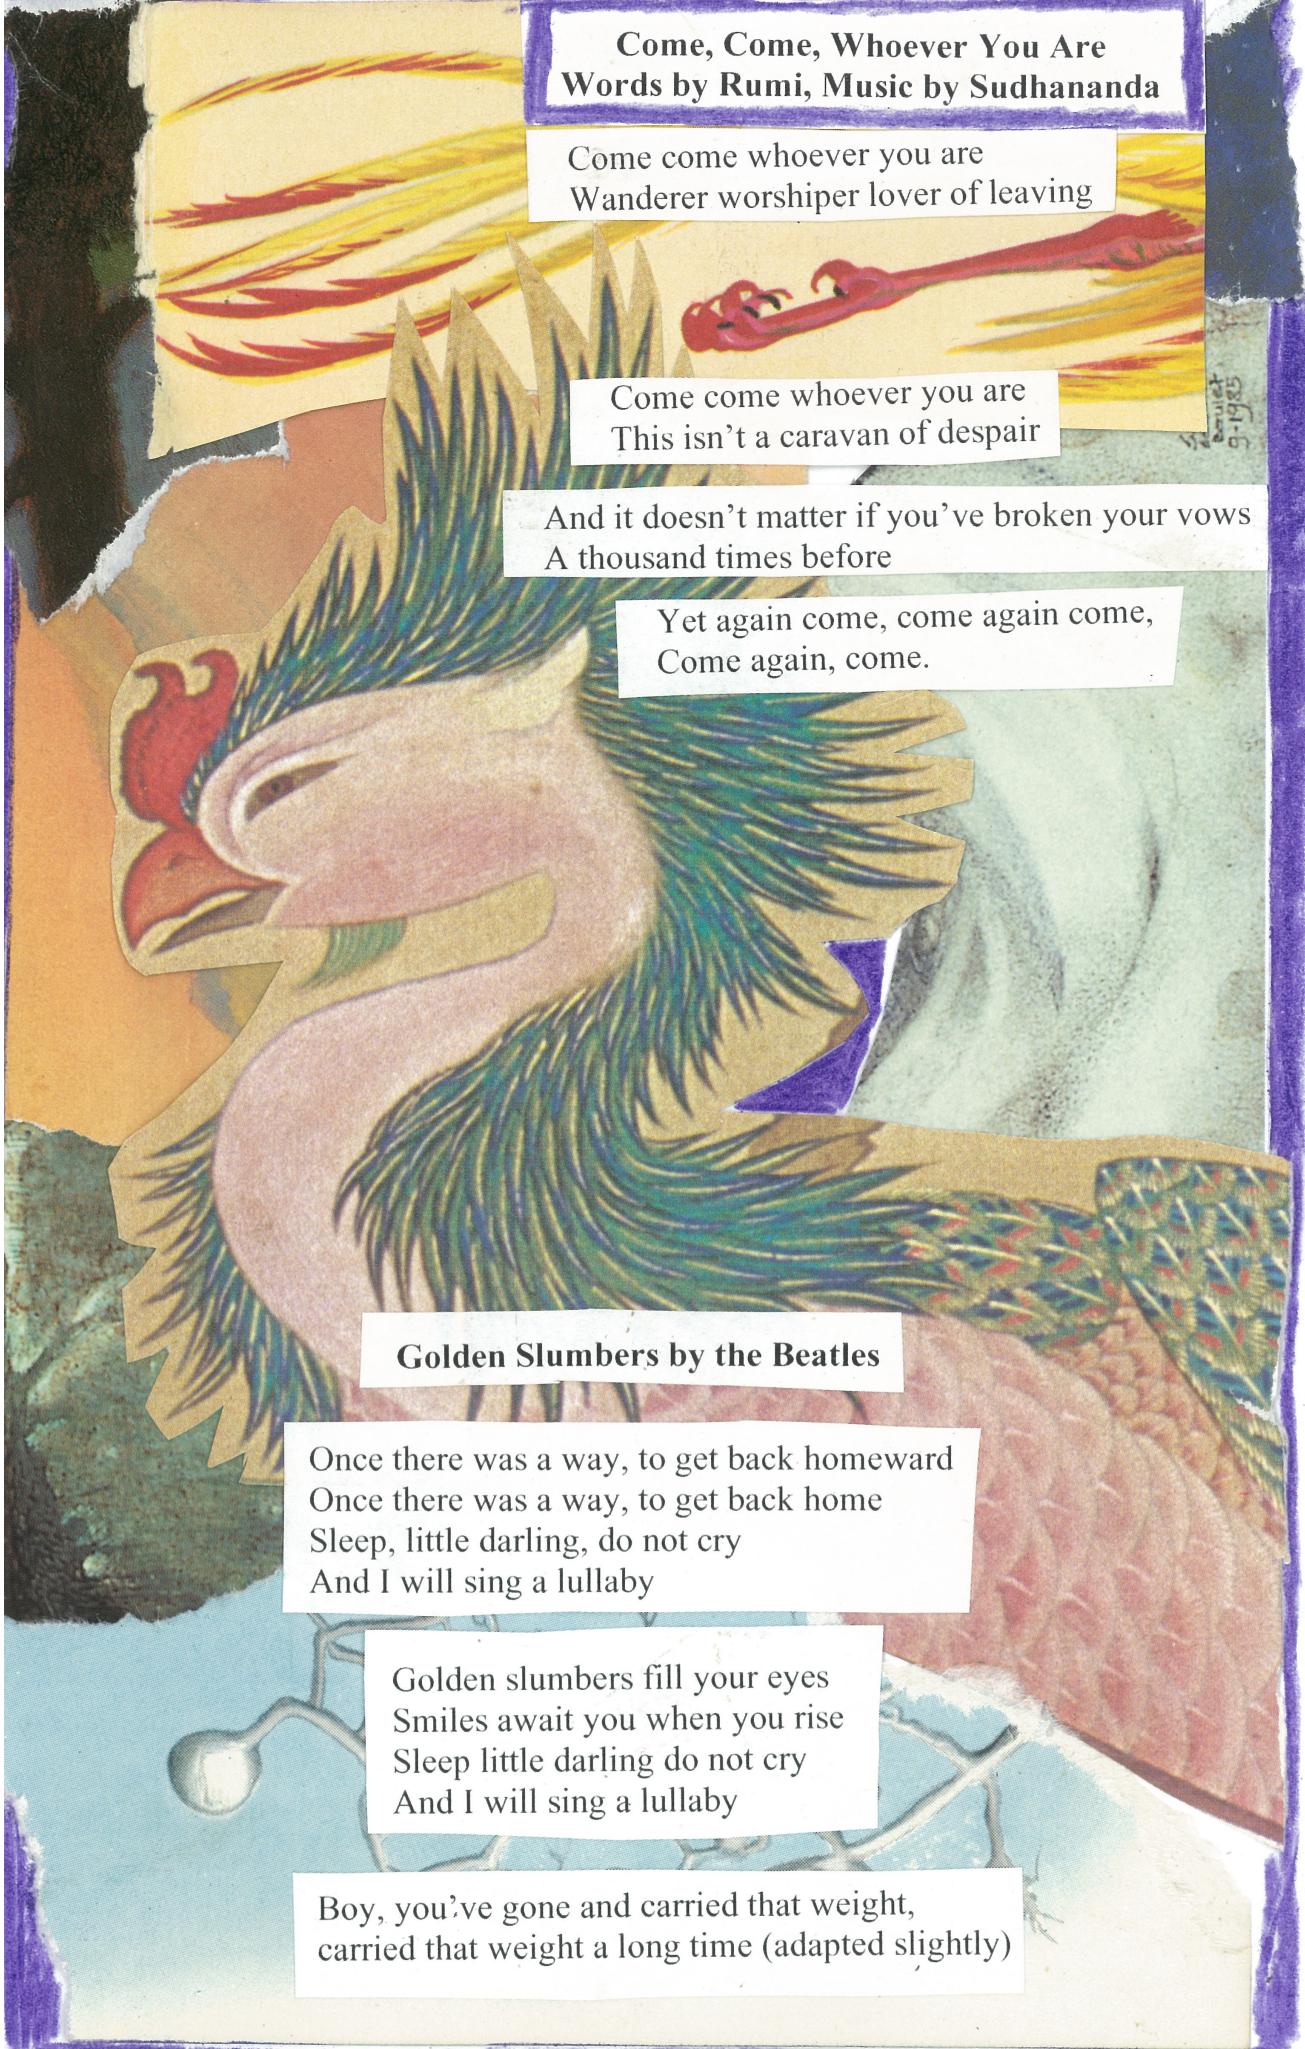

by Leonard Cohen

If it be your will  
That I speak no more  
And my voice be still  
As it was before  
I will speak no more  
I shall abide until  
I am spoken for  
If it be your will

If it be your will  
That a voice be true  
From the broken hill  
I will sing to you  
From this broken hill  
All your praises they shall ring  
If it be your will  
To let me sing

If it be your will  
If there is a choice  
Let the rivers fill  
Let the hills rejoice  
Let your mercy spill  
On all these burning hearts in hell  
If it be your will  
To make us well

And draw us near  
And bind us tight  
All your children here  
In their rags of light  
In our rags of light  
All dressed to kill  
And end this night  
If it be your will

Come, Come, Whoever You Are  
Words by Rumi, Music by Sudhananda

Come come whoever you are  
Wanderer worshiper lover of leaving

Come come whoever you are  
This isn't a caravan of despair

And it doesn't matter if you've broken your vows  
A thousand times before

Yet again come, come again come,  
Come again, come.

Golden Slumbers by the Beatles

Once there was a way, to get back homeward  
Once there was a way, to get back home  
Sleep, little darling, do not cry  
And I will sing a lullaby

Golden slumbers fill your eyes  
Smiles await you when you rise  
Sleep little darling do not cry  
And I will sing a lullaby

Boy, you've gone and carried that weight,  
carried that weight a long time (adapted slightly)

## Warrior Angels

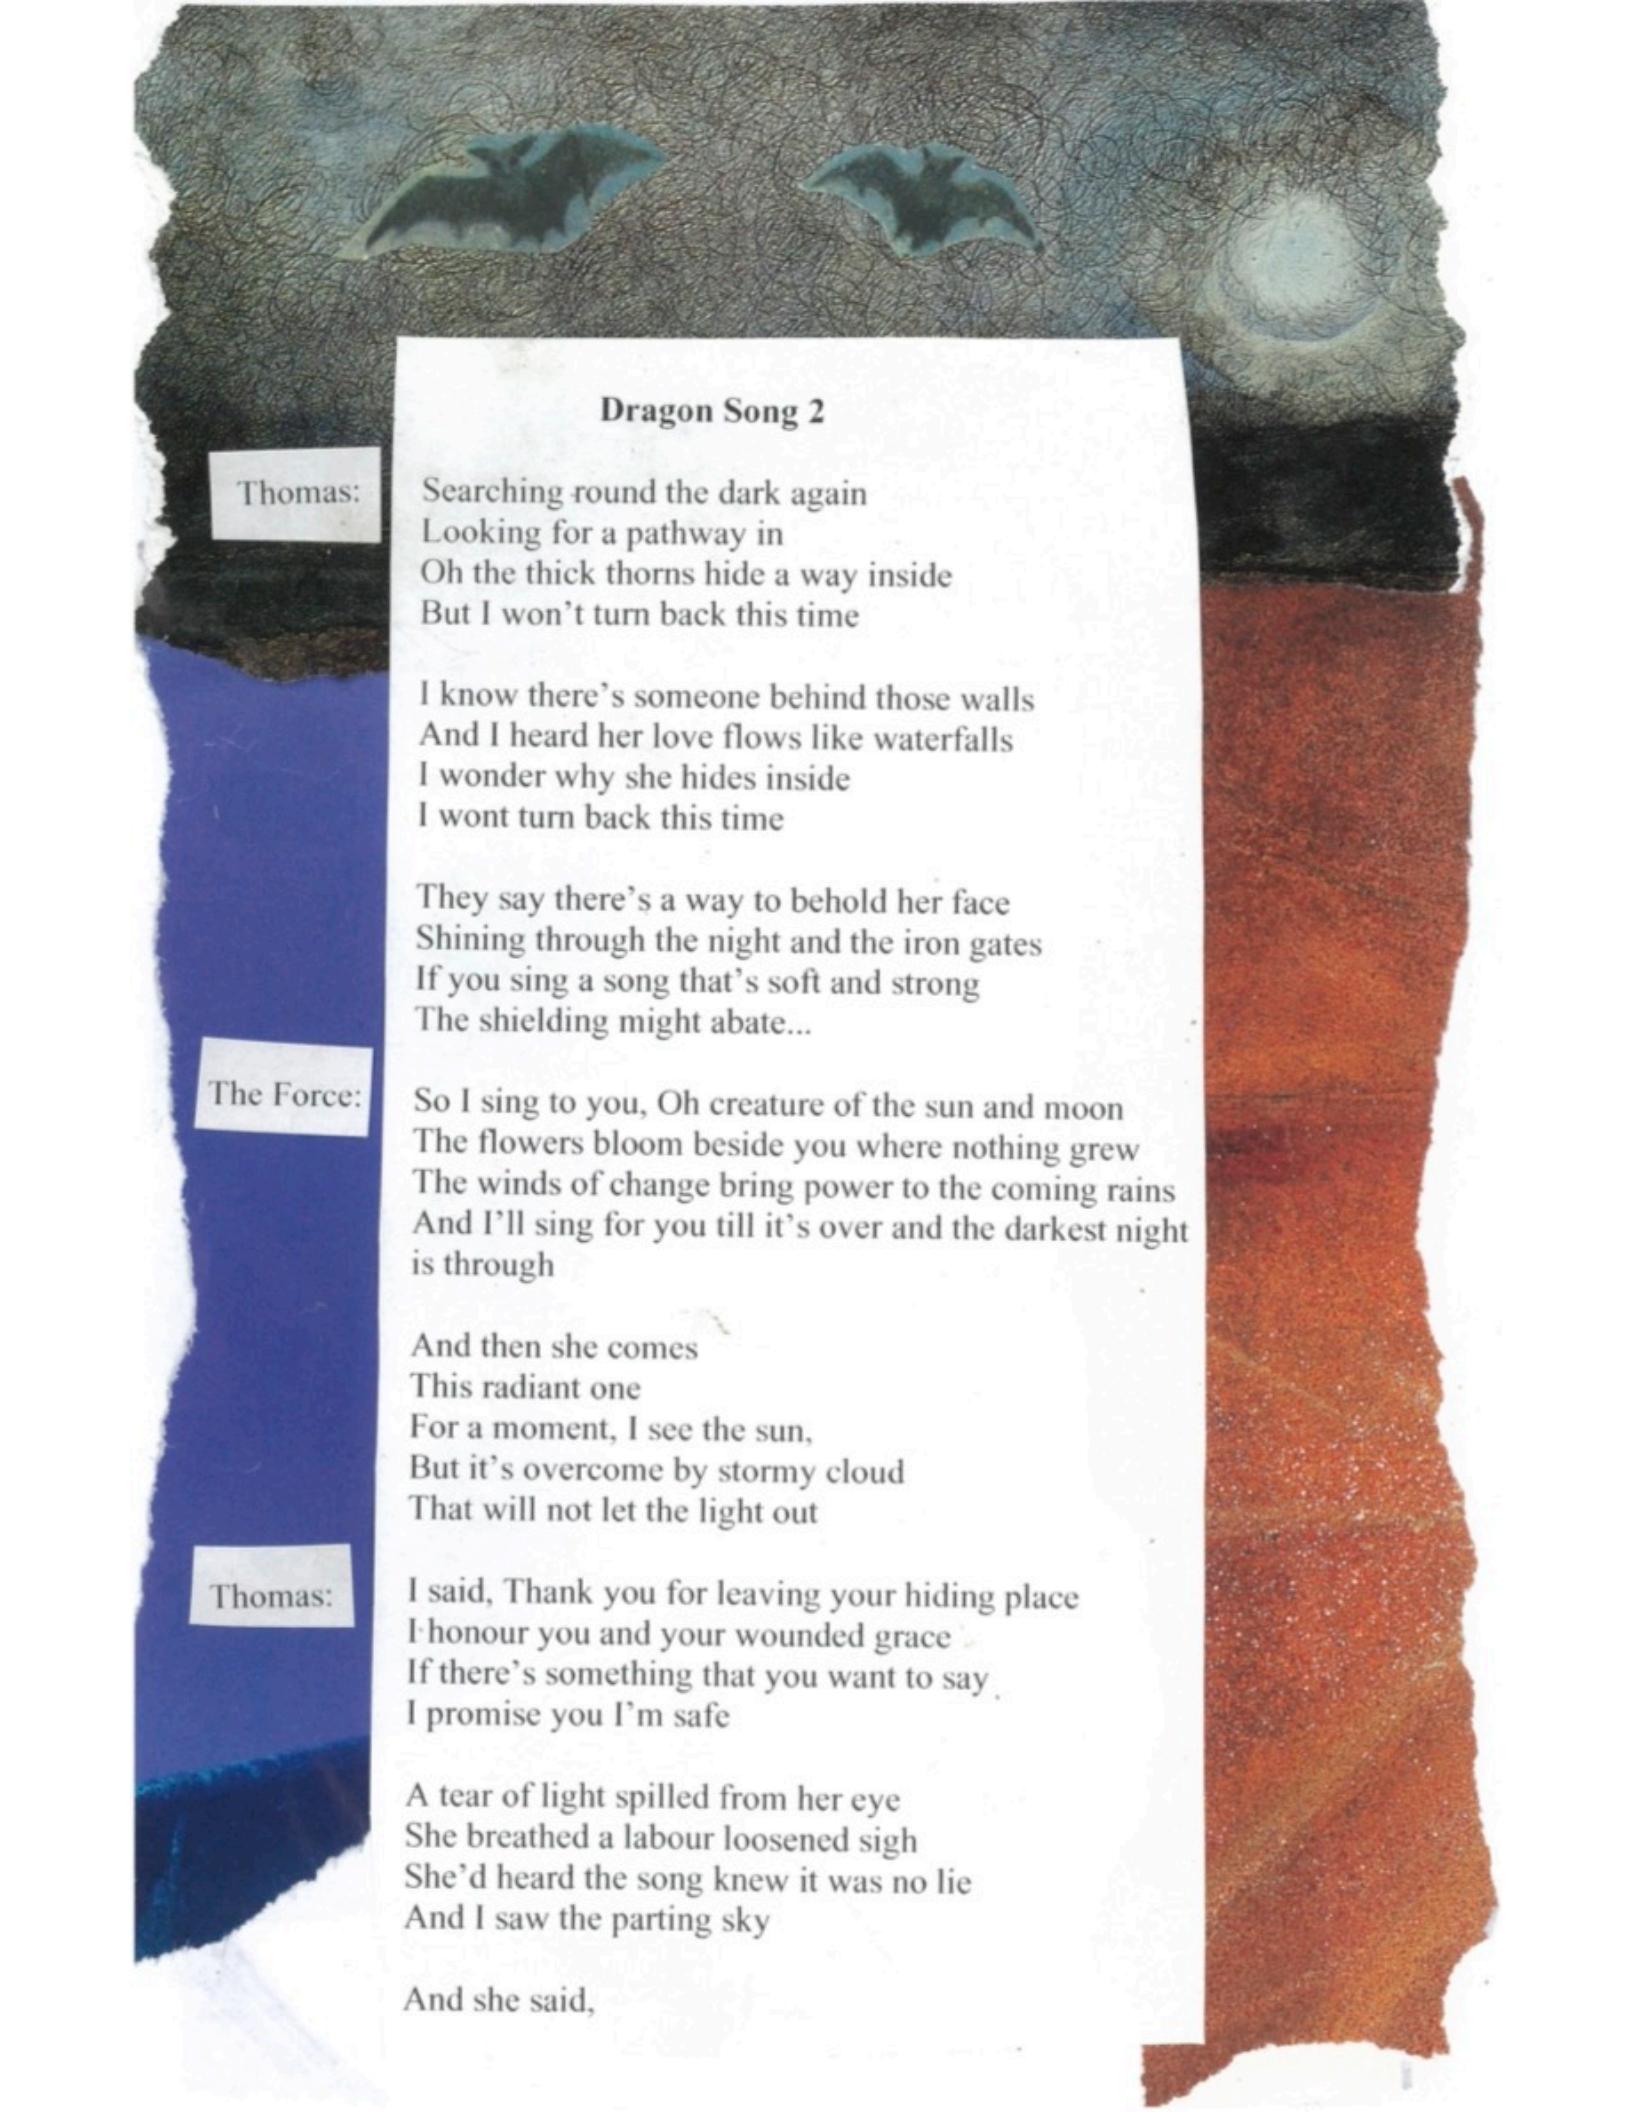

May the storm clouds rise and lift from your eyes  
May the sun come tumbling through  
May the birds take flight and sing from the skies  
Of the love that is following you

May the grey skies break and your spirit awake  
May a great fire burn within  
In the witches wake, may the whole world shake  
With the love that's coming in

There's warrior angels rocking the cradles  
The grandmothers gather to bring back the laughter  
The healers rise and the dreamers spin  
Oh the ceilings are caving in!

Whenever we stop and listen  
We'll find we're not alone  
Fierce freedom rallies on rooftops, in valleys  
We'll find our way back home

There's warrior angels rocking the cradles  
The grandmothers gather to bring back the laughter  
The healers rise and the dreamers spin  
Oh the ceilings are caving in!

## Dragon Song 2

Thomas:

Searching round the dark again  
Looking for a pathway in  
Oh the thick thorns hide a way inside  
But I won't turn back this time

I know there's someone behind those walls  
And I heard her love flows like waterfalls  
I wonder why she hides inside  
I wont turn back this time

They say there's a way to behold her face  
Shining through the night and the iron gates  
If you sing a song that's soft and strong  
The shielding might abate...

The Force:

So I sing to you, Oh creature of the sun and moon  
The flowers bloom beside you where nothing grew  
The winds of change bring power to the coming rains  
And I'll sing for you till it's over and the darkest night  
is through

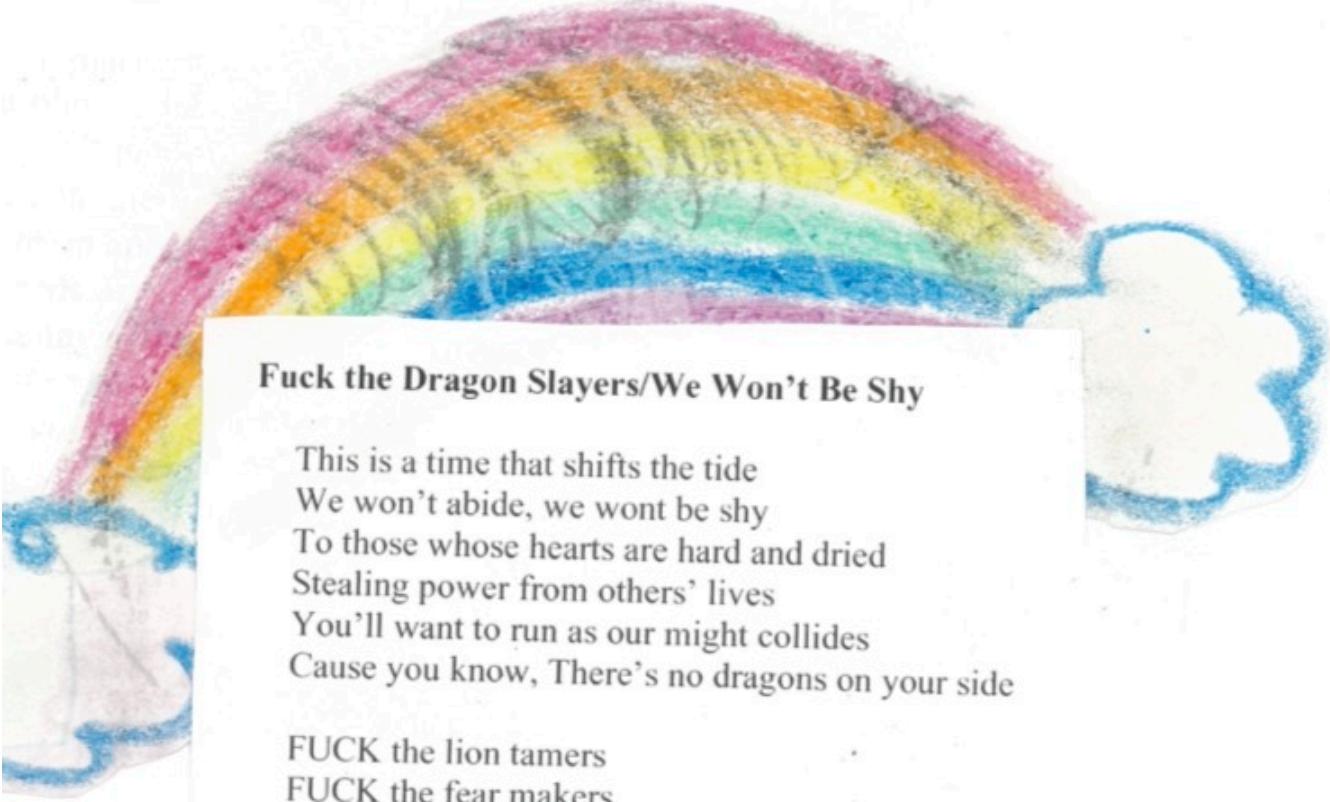

And then she comes  
This radiant one  
For a moment, I see the sun,  
But it's overcome by stormy cloud  
That will not let the light out

Thomas:

I said, Thank you for leaving your hiding place  
I honour you and your wounded grace  
If there's something that you want to say  
I promise you I'm safe

A tear of light spilled from her eye  
She breathed a labour loosened sigh  
She'd heard the song knew it was no lie  
And I saw the parting sky

And she said,

## Fuck the Dragon Slayers/We Won't Be Shy

This is a time that shifts the tide  
We won't abide, we won't be shy  
To those whose hearts are hard and dried  
Stealing power from others' lives  
You'll want to run as our might collides  
Cause you know, There's no dragons on your side

FUCK the lion tamers  
FUCK the fear makers  
FUCK the body shamers

FUCK the horse breakers  
FUCK the love haters  
FUCK the dragon slayers

We sing to you, oh creatures of the sun and moon  
The flowers bloom beside you, where nothing grew,  
The winds of change bring power to the coming rains  
We'll sing for you  
Till it's over and the darkest night is through

FUCK the forest stealers  
FUCK the prison keepers  
FUCK the puppy breeders

FUCK the horse breakers  
FUCK the love haters  
FUCK the dragon slayers

FUCK the lion tamers  
FUCK the fear makers  
FUCK the tight containers

FUCK the horse breakers  
FUCK the love haters  
FUCK the dragon slayers
